

The iSi recipe app for smartphones and tablets.

Whether shopping, in the kitchen, or far away from the stove. Thanks to the new iSi recipe app for IOS and Android, you can now get iSi inspiration anywhere and anytime, and all of this for a diverse range of applications. Our comprehensive recipe collection in the app version is suitable for the iSi Gourmet Whip and the iSi Thermo Whip. Ranging from simply pleasurable dishes to creatively refined cuisine – available for free download immediately in the App Store or Google Play Store.

Flawless functioning and infinite inspiration.

The extensive recipe collection – ranging from simply great to creatively sophisticated, cold or warm, sweet or spicy – makes the complete culinary diversity of iSi available to everybody. The digital repertoire of ideas is characterized by cooking styles, star chefs and their culinary creations that have particularly influenced us. In order to continue expanding this world of ideas, new and exciting iSi applications are added each month from the world of high-end gastronomy as well as from hobby chefs – in other words, a mass of iSi user know-how!

More mobile and limitless than ever before.

Whether while shopping, in the kitchen, or far away from the stove, now you can get iSi inspiration anywhere and anytime. And accordingly, the recipes are available offline and usable without a permanent WLAN connection.

The 400+ culinary ideas are clearly categorized. Thanks to advanced search and filter options, users can find the perfect recipe for any occasion quickly and easily. The integrated timer and practical shopping list help turn the dish into a culinary highlight. In the notes section, you can write and manage your very own tips and tricks for each recipe.

Numerous well thought-out features make the app highly customizable and very exciting to use.

Practical features and community functions.

The service section with FAQs, user instructions and our new videos on the topics of application, cleaning, warm application and handling our iSi decorator tips also make working with the iSi Gourmet Whip easier with clever suggestions and support.

The app is given a personal touch by the exciting community section, in which you can publish your own culinary results. Your personal favorites can accordingly be archived or shared by email.

Last but not least, this new, indispensable tool really puts the icing on the cake with an appealing layout and appetizing photography, and all of this can be found in the App Store or Google Play Store completely free of charge.
